**Comments:**

I really enjoyed the contest. Be nice to see cx a little better and/or more stations.

I look forward to the next such event - these short-format events are great!

A good fun hour – thanks again for organising..

80m was noisy and conditions not the best but I still had fun.

I used a combination of my 1953 Vibroplex Presentation bug and also my Begali HST MKII in Sideswiper mode.

Unless we can encourage more participants, I would like to see these contest go back to 45 minutes.

In the last 30 minutes of the contest with constant CQs I only managed to work 3 stations.

After 1 hour I only worked a total of 10 stations. Perhaps a 30 minute sprint would be more fun?

Operated QRP and found conditions very good albeit a bit cool sitting outside operating portable.
