**Comments:**

Tough conditions, not made any easier with the plasma TV next door!

I love CW – well, trying hihi.

Conditions noisy and not many stations heard.  
I forget to Txmit QRS after my Callsign.

Pretty miserable conditions made receiving 'character building' but  
I was able to make six contacts which made it worthwhile.  
Thank you for the contest.

Not as many operators for this contest as there usually are nonetheless  
another fun quick competition  
Station was battery powered IC-7300 at 5w into an end fed half wave antenna  
running east to west at average 13m height
